BOSS™
POOL HEATING

NANOX™

Boss NanoTek Technology

Made Extreme

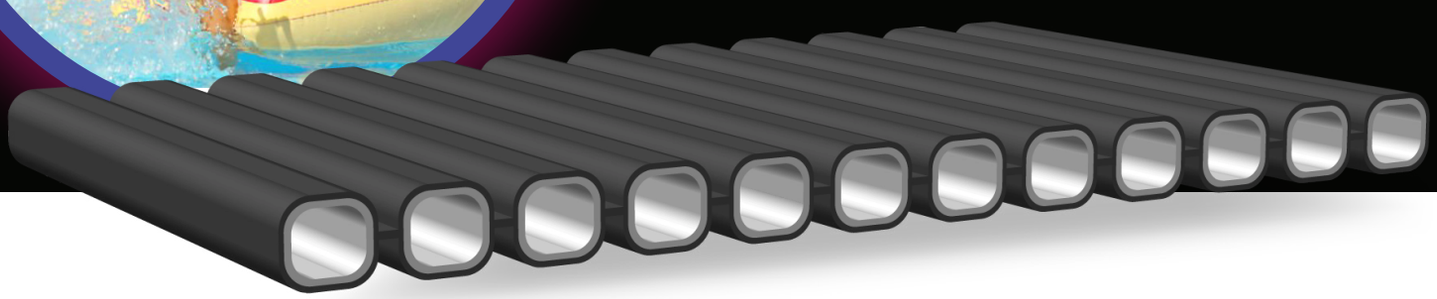

The World's Most Extreme Performance Strip Collector with Advanced Nano-Graphitic Composite Technology

NANOX™

www.bosspoolheating.com.au
sales@bosspoolheating.com.au
(03) 9561 2159

- Longer swimming season with the same coverage
- Lower running time to achieve desired pool temperature with the same coverage*
- More performance, less coverage
  (if roof space is an issue)

MaxBlack Outer Material

- Matte outer surface absorbs 20% more solar radiation*
- Enhanced solar absorption results in increased heating efficiency.
- Maximum ozone and UV resistance.
- Improved toughness to resist mechanical damage.

Larger 8mm Tubes

- New 12 Tube collector with large 8mm x 8mm water channels.
- 77% collector effective heating surface area.
- 3.6L of water per square metre of collector.
- Lower water flow rate for increased heat absorption.
- Less back pressure.

Nano-Graphitic Inner Layer

- 75% improved thermal conductivity*
- Transfers the sun's free energy quicker.
- Maximum chemical resistance.
- Enhanced resistance to flex fatigue.
- Maximum sealing retention to barbs.

Victorian MANUFACTURING Hall of Fame

Proudly manufacturing in Victoria for over 35 Years

AUSTRALIAN MADE & OWNED

UP TO 15 YEAR WARRANTY

10+5 LIMITED WARRANTY*

CLIMATE CARE CERTIFIED

BOSS POOL HEATING™
