**Daisy Saves** warmth and evaporation

**Daisy Saves** on cleaning

**Daisy Saves** on chemical loss

Maximum solar warmth penetrates lighter cover material to **warm the pool water** - not the cover

WinterKleen covers are ideal when the pool is not in use for extended periods and save your UltraDome Daisy cover from unnecessary exposure. WinterKleen stretches tightly over your pool so that leaves and debris blow off.

# 3 POOL SIZE

Simply decide on the essential details:

- (1) type of cover
- (2) roller system
- (3) pool size: length (B) X width (A) (+ step area) = Total square metres.

Ask for a quote let's say - 52m<sup>2</sup> 525B with an ST roller. Take into account if your pool is indoors or outside. Do you need more heat or less or have leaf debris. Remember your roller adds years to the life of the cover. Does your pool have non-standard features? These are some determining facts you need to discuss with us.
